California schools are required to check immunization records for all new student admissions at TK /Kindergarten through 12th grade and all students advancing to 7th grade before entry. Students entering 7th grade who had a personal beliefs exemption on file must meet the requirements for TK/K-12 and 7th grade. See shotsforschool.org for more information.

UNCONDITIONALLY ADMIT a pupil whose parent or guardian has provided documentation of any of the following for each immunization required for the pupil's age or grade as defined in table above:

- Receipt of immunization.
- A permanent medical exemption.*
- A personal beliefs exemption (filed in CA prior to 2016); this is valid until enrollment in the next grade span, typically at TK/K or 7th grade.†

CONDITIONALLY ADMIT any pupil who lacks documentation for unconditional admission if the pupil has:

- Commenced receiving doses of all the vaccines required for the pupil's grade (table above) and is not currently due for any doses at the time of admission (as determined by intervals listed in Conditional Admission Schedule, column entitled "EXCLUDE IF NOT GIVEN BY"), or
- A temporary medical exemption from some or all required immunizations.*

CONDITIONAL ADMISSION SCHEDULE FOR GRADES K-12

Before admission a child must obtain the first dose of each required vaccine and any subsequent doses that are due because the period of time allowed before exclusion has elapsed.

2. If DTaP #3 is the final required dose, DTaP #3 should be given at least six months after DTaP #2, and pupils should be excluded if not given by 12 months after second dose. Three doses meet the requirement if at least one dose of Tdap, DTaP, or DTP vaccine was given on or after the seventh birthday. One or two doses of Td vaccine given on or after the seventh birthday count towards the requirement.

Continued attendance after conditional admission is contingent upon documentation of receipt of the remaining required immunizations. The school shall:

- review records of any pupil admitted conditionally to a school at least every 30 days from the date of admission,
- inform the parent or guardian of the remaining required vaccine doses until all required immunizations are received or an exemption is filed, and

For a pupil **transferring** from another school in the United States whose immunization record has not been received by the new school at the time of admission, the school may admit the child for up to 30 school days. If your child is unable to get the school health check-up, call the Child Health and Disability Prevention (CHDP) Program in your local health department. If you do not want your child to have a health check-up, you may sign the waiver form (PM 171 B) found at your child's school.

Dear Parent or Guardian:

To make sure your child is ready for school, California law, *Education Code* Section 49452.8, now requires that your child have an oral health assessment (dental check-up) by May 31 in either kindergarten or first grade, whichever is his or her first year in public school. Assessments that have happened within the 12 months before your child enters school also meet this requirement. The law specifies that the assessment must be done by a licensed dentist or other licensed or registered dental health professional.

Take the attached Oral Health Assessment/Waiver Request form to the dental office, as it will be needed for your child's check-up. If you cannot take your child for this required assessment, please indicate the reason for this in Section 3 of the form. You can get more copies of the necessary form at your child's school or online from the California Department of Education's Web site at <http://www.cde.ca.gov/ls/he/hn/>. California law requires schools to maintain the privacy of students' health information. Your child's identity will not be associated with any report produced as a result of this requirement.

The following resources will help you find a dentist and complete this requirement for your child:

1. Medi-Cal/Denti-Cal's toll-free number or Web site can help you to find a dentist who takes Denti-Cal: 1-800-322-6384; <http://www.denti-cal.ca.gov>. For help enrolling your child in Medi-Cal/Denti-Cal, contact your local social service agency at San Mateo County Human Services office 2500 Middle field Rd. Redwood City, CA 94063 (650)599-3811 or go to <http://www.denti-cal.ca.gov/WSI/Bene.jsp?fname=ProvReferral>.)
2. Healthy Families' toll-free number or Web site can help you to find a dentist who takes Healthy Families insurance or to find out if your child can enroll in the program: 1-800-880-5305 or <http://www.benefitscal.com/>.
3. For additional resources that may be helpful, contact your local public health department at San Mateo County Health Department at 225 37th Ave #11, San Mateo, CA 94403 or go to <http://www.dhcs.ca.gov/services/medi-cal/Pages/CountyOffices.aspx>).

Remember, your child is not healthy and ready for school if he or she has poor dental health! Here is important advice to help your child stay healthy:

- Take your child to the dentist twice a year.

- Choose healthy foods for the entire family. Fresh foods are usually the healthiest foods.
- Brush teeth at least twice a day with toothpaste that contains fluoride.
- Limit candy and sweet drinks, such as punch or soda. Sweet drinks and candy contain a lot of sugar, which causes cavities and replaces important nutrients in your child's diet. Sweet drinks and candy also contribute to weight problems, which may lead to other diseases, such as diabetes. The less candy and sweet drinks, the better!

Baby teeth are very important. They are not just teeth that will fall out. Children need their teeth to eat properly, talk, smile, and feel good about themselves. Children with cavities may have difficulty eating, stop smiling, and have problems paying attention and learning at school. Tooth decay is an infection that does not heal and can be painful if left without treatment. If cavities are not treated, children can become sick enough to require emergency room treatment, and their adult teeth may be permanently damaged.

Many things influence a child's progress and success in school, including health. Children must be healthy to learn, and children with cavities are not healthy. Cavities are preventable, but they affect more children than any other chronic disease.

If you have questions about the new oral health assessment requirement, please contact Abbe Keane school nurse at akeane@woodsideschool.us or contact the district office (650) 851-1571.

Sincerely,
