There is a California law that requires ALL children 7 years or younger to sit in a booster seat, unless they are 4 feet 9 inches or taller. Before, children could legally avoid booster seats when they turned 6 years old or reached 60 pounds. Children who are 8 years old do not need a booster seat; however, it is strongly suggested that they use a booster seat if they are shorter than 4 feet 9 inches.

No student will be permitted to go on any field trip without this signed form on file by departure time.
